JUST HOW MANY MORE BLOWS WILL DAN- VILLE STAND.

And now the Danville Fair, usually one of the best in the state, has been called off, giving as the reasons, the severe drought and the absence of hotel accommodations. Poor old Danville just how much more degradation we wonder will she suffer before her wealthy citizens come to their own senses and her rescue and put up some kind of a hostelry in keeping with the needs of the town. Surely, surely ere long the light will break in upon them, they will come to their senses, will realize the fact, readily apparent to her neighbors, that the good old town is on the rapid decline, and will do something to restore her to her former standing of one of the best and most progressive towns in Kentucky.

CONGRESSMAN STAN- LEY'S FATHER

A Minister Still In The Service.

It may not be generally known that the father of Congressman A. O. Stanley, one of the three candidates for the Democratic Senatorial nomination, is a minister of the gospel, but he is. His name is Rev. Dr. William Stanley, and he is a leading light of the Christian church at Burkesville, Cumberland county Ky. Dr. Stanley, who came to Louisville a few days ago to see his son, who was there for a political speech, although 83 years old, is actively engaged in the ministry, and told a newspaper reporter who interviewed him that he can still ride horseback or a bicycle with almost the same ease he did as a young man. He has served in various pulpits throughout Kentucky for nearly fifty years and personally knew Alexander Campbell, the founder of the denomination, which now numbers such a large membership in this State. Dr. Stanley takes a most lively interest in the Senatorial candidacy of his distinguished son and is confident he will win the toga.—Lexington Leader.

MIGHTY BATTLES FOR TEMPERANCE To Be Fought In Kentucky.

Before the coming of frost fourteen counties within the Commonwealth will have voted as to whether or not whiskey shall be banished from their confines. They are Daviess, Henderson, Christian, McCracken, Bell, Mason, Montgomery, Clark, Bourbon, Fayette, Anderson, Shelby, Franklin and Scott. In some of these counties the contest will be doubtful, and the race will be spirited, while in others the issue is one-sided, but the battle against rum will be relentless, every argument will be brought to bear, the ablest advocates of the cause obtainable will be engaged in the work, and a battle for temperance such as was never waged before will be fought for the banishment of strong drink. Mrs. Frances E. Beauchamp, president of the State W. C. T. U. and herself a speaker in the cause of temperance of no mean ability, will make a personal canvass of each of the counties, and victories which will surely be won by the dry forces, will be due in no small measure to her efforts.

We are to be thankful that our troubles along this line are long since passed, whiskey was banished from Lancaster by means of the ballot more than 25 years ago. The campaign is well to be remembered and was a warmly contested one, friend was arrayed against friend, breaches of friendship were made, which we are glad to say are long since healed, and we are living in a dry county, perhaps as dry as can be had under the present laws which permit interstate shipment, and beyond doubt, we are living more comfortably and happily than if we had open saloons. But the casting out of the saloon is not by any means the end of the battle, at least this was our experience, for with the debasement of the legal sale, the "blind tiger" reared his ugly head. But we long since succeeded in downing this beast, and by the aid of efficient officers whose actions are backed up by strong public sentiment, he stays down, or at least as soon as he seeks to again rear his head, a well directed blow crushes that ambition.

AS OTHERS SEE US.

Editor Henry Thomas of the Casey County News has the following complimentary notice of the visit of the Lancaster Masons to Liberty recently: "Saturday at high noon, a dozen select Masons from Lancaster Chapter landed in Liberty and as soon as refreshments could be served at the Bell Hotel which was ready upon their arrival, the happy party repaired to the Masonic Hall where some splendid gentlemen were introduced and took all the degrees including the Royal Arch. There are four lengthy degrees belonging to the order and this Lancaster degree team seemed to know every word and knew how to make it dramatic. At 5 o'clock P. M. recess was taken for supper, and at seven the Chapel was again in action putting on the work, making it interesting, instructive and dramatic every step of the way and kept it up until the mid-eight hour, arriving, closing the work with installation of new officers for the Liberty Chapter."

HACKLEY POSTOFFICE TO BE DISCONTINUED.

The postoffice at Hackley is to be discontinued on July 31st. Patrons of the office will be supplied by a rural route to be established out on Paint Lick, and some of the people who have been accustomed to get their mail at Hackley will doubtless patronize rural route No. 1 out of Lancaster which also travels in that vicinity. Hackley is near the home of Mr. Joe Burnside on the Kirsksville pike and Mr. S. R. Foley was the postmaster.

WHO CAN SUGGEST A REMEDY FOR THIS EVIL?

The tomato crop is being destroyed by a new enemy. A worm, evidently a borer of some description, very much resembling the ordinary tobacco worm, but varying in length from one to two inches in length, is destroying the crop. The worm enters the tomato which immediately begins to rot and is of course rendered useless. They evidently attack only ripe fruit or those about to ripen, but they are here in large numbers and unless something is done to check their ravages, the already drought curtailed crop will be damaged at least fifty per cent.

GARRARD COUNTY HAS HER QUOTO ACCORDING TO LAST CENSUS.

Kentucky has 208,084 men and women, according to the last report of the United States Census Bureau, who cannot read and write—valuable material going to waste—good people, but in a state of mental darkness. Garrard County has 834 of these unfortunates. A movement is on foot to give these people a chance like the grown people of Rowan County had in their Moonlight Schools. In that county men and women past eighty learned in a few weeks to read and write. Only twenty-three illiterates were left in that county, though there were 1152 when the Moonlight Schools began, three years ago. A number of Kentucky teachers have taken up the movement, and Moonlight Schools are being conducted in a number of counties in the State.

The Kentucky Illiteracy Commission has opened headquarters in the new State capital at Frankfort, and will gladly give information or lend assistance to any who are interested in stamping out illiteracy from Kentucky either in Moonlight Schools or by instructing individuals in their homes. The Commission is composed of Mrs. Cora Wilson Stewart, President; Dr. J. G. Grabbe, Secretary and Treasurer; Hon. Barksdale Hamlett, President H. H. Cherry, and Miss Ella Lewis. None of these men and women are to be paid for their services. Can we not lend them a hand? It is our Kentucky as well as their Kentucky. Let us wipe illiteracy out of Kentucky by 1920 when the next census is taken.

USEFUL HARRODS- BURG CITIZEN AND INTELLECTUAL GENTLEMAN DEAD.

The Harrodsburg Herald of July 10th gives an interesting account of a meeting of the Harrodsburg Historical Society, at which its president, Hon. W. W. Stephenson presided. An extra edition of the same paper gives an account of the sudden death of this worthy gentleman.

Mr. Stephenson was taken suddenly ill in the office of attorney C. E. Rankin; medical assistance was summoned, but he died before he could be sufficiently revived to be removed from the office.

Mr. Stephenson was one of the leading citizens in Central Kentucky, a striking figure in democratic politics, he had served in both houses of the Kentucky legislature, being a member of the Senate at the time of the death of Gov. Gobel, and a leader among the advocates of peace in those troublous times. Prominent in church circles, for many years a deacon in the Christian church, and at the time of his death a teacher of the largest bible class in his church; a noted historian, more conversant perhaps with Kentucky history than any citizen of the state, philanthropist and elegant gentleman.

Mr. Stephenson was 57 years of age. He was never married but lived with his sisters Misses Mary and Martha Stephenson in Harrodsburg.

Mr. Stephenson was well known in Lancaster and Garrard county, where he has both as an attorney and socially made many visits, and has many warm friends who grieve to hear of his sudden taking.

AUTO SERVICE TO CRAB ORCHARD.

Studebaker
WAGONS BUGGIES HARNESS

In use for 42 years
—and still going

In a recent letter to Studebaker, L. J. Balch of Coshocton, Ohio states that he owns a Studebaker Farm Wagon which has been in constant use for 42 years and is still giving good service.

This clearly shows that a Studebaker Farm Wagon is a good investment for any farmer.

We constantly carry a full line of Studebaker Farm Wagons, just as dependable, just as strongly built as the 42 year old wagon owned by Mr. Balch.

When you want a Farm Wagon, come in and let us show you our line of STUDEBAKERS.

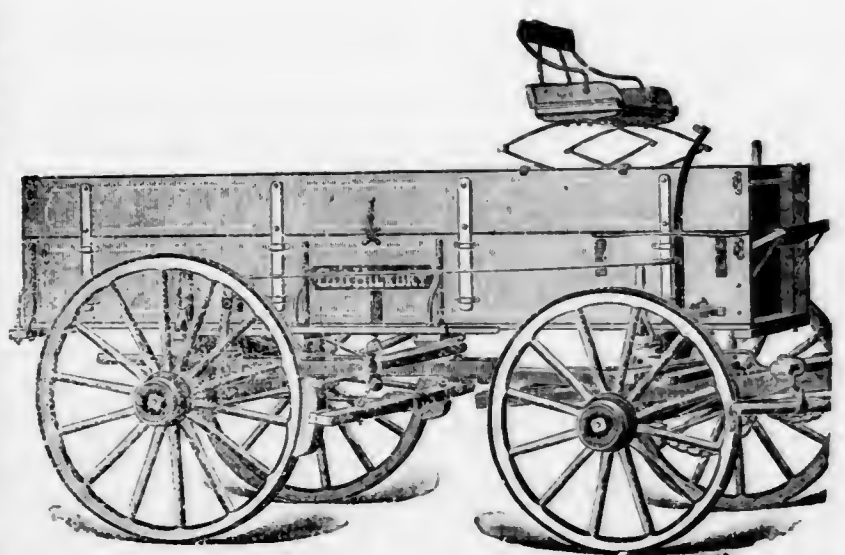

We can save you money.

Go to Church Message Twentieth Century Method of Awakening Religious Fervor

GO TO CHURCH!

In the brief time that the GO TO CHURCH movement has been so widely heralded throughout the country there has been a big increase in the attendance at churches. Clergymen declare that RELIGION NEVER WAS DEAD. All that it needed was an awakening. AND IT HAS AWAKENED.

But there are thousands today who have not yet heeded the GO TO CHURCH call. It is to these that this appeal is directed. Do you believe in a Supreme Being? If you do, is he not worthy of worship? No matter how derelict you have been in the past, the church awaits you. If you haven't been to church in a decade all the more reason that you GO TO CHURCH now.

AS A MATTER OF FACT THERE NEVER WAS A TIME WHEN PEOPLE HAD FORGOTTEN CHURCH. IN LATTER DAYS THERE HAS BEEN A WAVE OF MATERIALISM AND UNGODLINESS, BUT RELIGION ONLY REQUIRED AN AWAKENING CRY. THE GO TO CHURCH MOVEMENT IS AS A PRAIRIE FIRE. IN EVERY VILLAGE, HAMLET, TOWN AND CITY THE CRY HAS BEEN TAKEN UP. THIS GO TO CHURCH MESSAGE IS A TWENTIETH CENTURY METHOD OF AWAKENING RELIGIOUS FERVOR. IT IS SUCCEEDING.

Do your part in this splendid movement. When you read this ask your neighbor if he has read it. KEEP BOOSTING. Some people say that GOING TO CHURCH IS GETTING TO BE A FAD NOWADAYS. If that is so there are some fads worth while, after all. When one considers that all that the churches ask is a brief time every Sunday morning it is hard to conceive how any one can refrain from performing this plain duty.

GO TO CHURCH next Sunday!

GO TO CHURCH the following Sunday!

GO TO CHURCH every Sunday!

A WOMAN'S CHARMS

Beautiful hair, fluffy, lustrous, abundant and free from dandruff, is one of woman's greatest charms—it's her main delight—yet many who would be most attractive but for their streaked, thin and lifeless hair, think there is no remedy and that pretty hair is a gift of nature. Beautiful hair is really a matter of care and attention. Parisian Sage, when rubbed into the scalp and applied to the hair, will work wonders—you will be surprised and delighted with the first application—not only will the hair appear abundant, soft, fluffy, radiant with life, but really doubly beautiful.

Parisian Sage supplies hair and scalp needs. It surely removes dandruff with one application and cleanses the hair of all dirt and excessive oil. It is an inexpensive, scientific tonic, and contains nothing to injure the hair or scalp. It can be secured from R. E. McRoberts or at any drug store.

RICHARD P. ERNST, CANDIDATE FOR UNITED STATES SENATOR.

Successful Lawyer and Business Man Seeks the Republican Nomination—Graduate of "Old Centre" College—Prominent in Religious and Educational Work In Covington and His Native State

Richard P. Ernst, Candidate for Republican Nomination U. S. Senator.

Covington, Ky.—(Special.)—Richard P. Ernst, who is a candidate for the Republican nomination for United States Senator, is a native Kentuckian, having been born in Covington in 1858, where he has lived all of his life, and where his parents lived.

He received his primary education in the schools at Covington and afterward graduated from "Old Centre" College, at Danville, with the Class of '78, winning the valedictory honors of his class. Later he graduated from the Law School of the University of Cincinnati, in a class of which William H. Taft was a member. Shortly after completing his studies he married Miss Susan Brent, granddaughter of Chas. Brent, who was for many years a prominent citizen of Paris, Ky. They have two children, one son and one daughter, now grown.

Mr. Ernst, because of his splendid business ability and attractive personality, early in life became prominently identified with the business interests of Northern Kentucky, and through his Covington and Cincinnati law offices has attained great success in his profession.

Life-Long Republican.

Politically Mr. Ernst has been a life-long Republican. For many years he has devoted both his time and his means to a very liberal degree for the success of his party. He was for many years a member of the State Central Committee, was its chairman when the party achieved its most notable triumphs in the state, has been delegate to several national conventions, and in many other ways has served his party, often at great personal sacrifice. He has been able to maintain terms of friendship with all elements and factions in his party, and if nominated will receive the support of Republicans and independents without regard to any former personal prejudices or factional differences.

Interested in Church and School.

Mr. Ernst is a member of the First Presbyterian Church of Covington, and an elder in that congregation. For many years he has been President of the Covington Young Men's Christian Association, which is one of the most successful and widely popular institutions of its kind in the country, as it appeals to boys of all denominations.

Mr. Ernst retains a wide interest in educational affairs. He is not only a member of the Board of Trustees of his alma mater, "Old Centre," but is also a trustee of the Western College for Women, at Oxford, O., and is a

trustee of Lane Seminary, at Cincinnati, one of the oldest schools of theology in the United States. In this connection he has been very liberal in offering prizes to stimulate the student, and is usually responsible for the schooling of at least one young man every year. He also takes an active personal interest in all local charitable institutions.

Strong With Workingmen.

Mr. Ernst has always had many warm friends among the working boys of Covington, and enjoys great popularity with them. He has always aided them in their troubles, and has been a very influential factor in his work of making their relations with their employers pleasant and profitable.

A Business Campaign.

Mr. Ernst's candidacy will appeal strongly to the business men of Kentucky. Successful himself and identified with men who have succeeded to commercial and professional life, he offers his services to the state at a time when there is a widespread demand for high-class business men to take a part in politics, and to offer to the state and to the country that degree of business skill and experience which is so necessary to success in private life.

There is a growing conviction that business interests have not been fairly and intelligently represented in the councils of government—that gentlemen, well disposed, no doubt, but without practical knowledge of commercial affairs, and who themselves have not won their spurs in business and professional careers, have attempted to legislate along theoretical rather than practical lines, and that as a result of these experiments all departments of business and the public generally have suffered.

Mr. Ernst, if nominated and elected, will take to his Senatorial office not only a mind trained by education and experience, but that wide, practical viewpoint which will enable him to act at all times to the best interest of the farmer, the manufacturer and the consumer.

Conservative Politically.

It may be stated in this connection that Mr. Ernst, in his political management, has always treated his Democratic opponents with such a spirit of fairness and courteous consideration that he has the confidence and respect of members of that party to a most unusual degree.

Mr. Bailey did not lose control of the car, but quickly stopped and took Mr. Stone to a Dr. Mr. Stone has returned home and is getting along nicely.

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui

The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women.—why not you? Try Cardui. E-71

Statistics show there are 84 illiterates in Garrard Co. It seems appalling, it should be humiliating to every right thinking man and woman and it would be overwhelming to many of us if we did not know that what has been accomplished to wipe illiteracy out of other counties can be done for ours, if we will only put our shoulders to the wheel.

God has bestowed upon the children of Garrard Co. the inestimable gift of good health and good minds, and it is our duty to preserve them. The mind has a certain vegetative power which cannot be wholly idle. If it is not laid out and cultivated into beautiful thoughts and beautiful deeds it will shoot up in bad thoughts and bad deeds. From this then is seen the necessity of careful mental training, a training of the mental faculties in the right direction. If our boys and girls are taught how to think they will soon learn what to think. It is impossible to over estimate what it would mean if we would wipe illiteracy out of Garrard Co. True, it takes money to maintain our public school system if it is progressive, but it is means well applied and repays fourfold.

Look upon the educated boys and girls of Garrard county and compare them with the uneducated, see which class fills jails and penitentiaries and then you must certainly concede the support you have already given your school, has not been given in vain or trusted to hands that have misapplied it. Now the time has come when we must do more than send our own children to school, we must see that every

boy and girl of school age is in school, if they are not and we must help enforce our laws along this line. "Knowledge is power," Garrard will become a power when illiteracy is stamped out and not until then. What Mrs. Cora Wilson Stewart has done for Rowan Co. we can do for Garrard. She devoted patient study and work to wipe illiteracy out of her own county and now she proposes to help every county in the state, knowing the reward it offers is full compensation for all the hours of weary, self denying labor.

The Record makes an appeal to every man and woman to help in this great work.

The State wide primary is now only fifteen days ahead. There are three candidates for the long and three for the short term to be voted for upon the Democratic ticket in this election. In this section of the State from the present indication and interest taken there will be a small vote cast.

Thus far in the contest we have carried out the general policy of this paper as to democratic nominations and have undertaken to treat the candidacy of all fairly, at the same time reserving and exercising our privilege of supporting the democrats we think best suited for the nominations. We are gratified to see the rapid growth of the candidacy of Congressman A. O. Stanley in favor. Some newspapers who have heretofore published that he had no chance for the nomination are now seeing the situation very differently and are stating in their news columns that is a close contest between Stanley and Beckham. And it is now generally predicted that the contest will be close. From no source do we have any reports favorable to Governor McCreary and it is generally conceded that the count will show the Governor a poor third. We publish in this weeks issue the speech delivered by Mr. Stanley at the National Theater in Louisville which gave such a boost to his candidacy. It is an effective reply to certain newspapers that have constantly misrepresented the issues in this contest and they have many times treated Mr. Stanley unfairly. Many democrats, we think, have been lead to change their support after reading this speech. Numerous democrats of Kentucky who have been supporting Mr. Beckham have resented the activity of the Louisville Post and are unwilling to follow the lead of that paper and its editor. The people will consider the merits of the candidates during the next fifteen days and we believe will settle the contest in a fairly conducted primary that will leave little business behind, and who ever may receive the majority at the polls will be acceptable to the party and receive its united support in the November election.

"And yet in His own time the Lord will provide." He has never yet failed us, and we have faith that He never will. Just when we were bemoaning the long drought and farmers were predicting a complete failure of crops, He sends what was doubtless one of the most copious rains ever seen in this section in the month of July, and which now is conceded to give promise of the best corn and tobacco crop in this county that has been seen here in years.

We are now threshing one of the best wheat crops ever seen in the county, and with the promise of other crops equally as good, we must reach the conclusion that He surely does provide. The provision may not be made always just when we think it should, but it nevertheless always comes, and we should learn to await His pleasure with a little less complaining, with a little more patience.

As a general thing we are prone to complain before we are really hurt; for instance, before the recent splendid rains, to hear the farmers complain and predict, we were upon the brink of famine and ruin, when in point of fact very little actual damage was accomplished by the lack of rain, at least nothing like one would infer from the general tone of the farmer. It is true that some little hardship was experienced by some, and in some instances actual loss occurred to some crops, but this was more than overbalanced by the munificent crops of other varieties, and taken upon the whole, we have much more reason to rejoice than to complain.

TYPHOID FEVER EPIDEMIC.

Impure water is charged being largely responsible for the epidemic of typhoid fever at Henderson. Owing to the drought water is low all over the State and it behooves every locality to look well to the water they use. This is also the time of the year when all should join hands in trying to eliminate the fly. One case of fever and the fly will spread it all over the town and county.

HOG CHOLERA.

The Kentucky Agricultural Experiment Station officials say that hog cholera is prevalent in all parts of the State and are sending out a warning to all parts of the State. The best known method against the disease is the use anti-hog cholera serum at the proper time. The State Experiment Station is prepared to furnish this serum to farmers free of charge and will supply any information upon request. The State has gone to large expense to protect hog raisers against loss and every farmer should immunize their hogs and run no risk.

STANFORD TO HAVE THE BEST FAIR IN HER HISTORY.

We do not know whether or not it is due to the fact that a Garrard county man is Secretary, but Stanford is to have the best Fair this year in her history. The leading horse men of the state are already speaking for stall room and signifying their intention of being there with their "strings", and an unprecedented show of first class stock is expected. With Danville out of the list of Blue Grass fairs this season, all of the fair going people of the adjacent counties will undoubtedly make their arrangements to attend the Stanford exhibition on August 19-20 and 21st and our good neighbors will be taxed to their uttermost to entertain their guests upon that occasion. However, they are past masters at the art of entertaining, and the probable heavy increase in numbers inspires no fear in their hearts.

Secretary W. P. Kincaid is proving "the right man in the right place" and is sparing neither time, expense or trouble to see that the event is properly advertised, and that everything possible in the way of attractions is brought to this place for the event. "Plummer" has under advisement the matter of coming over the organizing an association and giving an exhibition in Garrard next year, and if he does, you may look out for a good one.

Lancaster, always a liberal patron of Stanford Fairs, will send an unusually large delegation this year.

BURDETT IN FORM.

The Lancaster Eclipse Baseball team won from the Frankfort Cubs, the first game of the season, 7 to 1. Frankfort's only run was made in the first inning. The feature of the game was the pitching and catching of Burdett and Emerson and sensational fielding of Shorts, Perkins, Anderson and Lewis.

FREE TRIP TO STATE FAIR.

The management of the State Fair has announced that it will give a free trip to the State Fair to be held in Louisville September 14-19 to one farmer boy in every county, the choice to be made by competitive examination. In the 120 counties of Kentucky there is an abundance of future farming material and 120 boys will bring back to their respective counties knowledge which their forefathers never knew or practiced. A boy must represent Garrard.

MORRIS.

Miss Flora Morris a popular young lady of the Hubble section of Lincoln county, died at her home Sunday and after funeral services at McKendree church at Hubble on Monday, her remains were interred in the Lancaster cemetery. Miss Morris' death was due to tuberculosis from which she had been a long sufferer. She was a daughter of Mr. W. S. Morris.

PRUITT.

After an illness of several months, of cancer, Mrs. Georgiana Pruitt, aged 57 years and wife of W. S. Pruitt, died at her home on the Crab Orchard pike this morning at five o'clock. Mrs. Pruitt was a life long member of the Baptist church, with a noble character. She leaves besides her husband, three sons, Lee, Nathan and Claude, all of whom reside in the county. Funeral services will be conducted at the Baptist church Friday morning at 11 o'clock, by Rev. J. W. Beagle, after which interment will take place in the Lancaster cemetery.

BEST.

Mrs. Mary Ann Best, aged about 76 years and widow of Ebenezer Best, died this morning at Crab Orchard after one weeks illness of Pneumonia. Mrs. Best with her grand daughter, Mrs. Blaupied, went to Crab Orchard about two weeks ago and being in feeble health, she contracted Pneumonia from which she never seemed able to throw off, owing to heart failure in the last few hours. The news came as a great shock, as it was thought yesterday she was much better.

She was a noble Christian lady and a devoted member of the Presbyterian church at this place. Mrs. Best is survived by two sisters, Mrs. F. L. Adams and Mrs. Ruth Best of Wyoming and was a cousin of Mrs. R. K. Conn of Paint Lick and Mrs. Mattie Lawson, of Stanford.

She leaves two grand-children, Mrs. Jack Blaupied, of this city, who was constantly at her bedside during her entire illness and Mr. Jack Best, of Missouri, who was telegraphed for last Sunday and arrived before his grandmothers death. Her remains were brought to her late home this morning, at which place services will be held Friday afternoon conducted by Rev. J. Rockwell Smith and at her request, interment will take place in the Lancaster cemetery.

No Use for It. Secretary and General Adviser—"Now you really ought to see about getting a coat of arms!" Self-made Man—"But I've already got far more clothes than I know what to do with!"

ANNOUNCEMENT

In order that we may not have to shut down our Ice and Ice Cream Factory when the City Water gives out, we are building a

2,000,000 Gallon Reservoir

This reservoir has a water shed of 100 acres, and is fed by several everlasting springs. Our patrons and friends can depend upon us to supply them with Ice and Ice Cream through out the Summer, regardless of weather conditions or the City Water Supply.

GREAT ADVANTAGE IN FRUIT CULTURE

SPECIAL AGRICULTURAL TRAIN WILL MAKE A TEN-DAY TOUR.

STARTS ON JULY FIFTEEN

Train Equipped With Most Interesting and Instructive Exhibits That Can Be Secured for the Trip.

On July 15th the Agricultural Experiment Station will send out from Lexington an agricultural special train, which will make a ten-day tour of Eastern Kentucky in the effort to add interest to the proper tillage of the soil of that section. It is, of course, understood that through the mountains of Kentucky the area of land suitable

for general cropping is limited and a system of agriculture suitable to these conditions must sooner or later be adopted.

In view of these facts the Experiment Station wishes to show to the people of Eastern Kentucky the great advantages of fruit raising and general horticulture, also the advisability of going in heavily into poultry production in a section so finely adapted to the production of choice fruit and poultry.

In addition to these two specialties there have been prepared for this train exhibits bearing on the lumbering industry, and, as in other branches, the best authorities have been engaged to lecture.

The train will be equipped with the most interesting and instructive exhibits that can be prepared, and it will be a great disappointment to the Experiment Station if the people do not visit this train in large numbers, take a lively interest in its mission, and profit by its teachings.

TRAIN WILL RUN ACCORDING TO THE FOLLOWING SCHEDULE.

THE KITCHEN GARDEN AND HOME ORCHARD

Gardening and Fruit Growing Appeals to Man—Profit Made From Small Plot.

Perhaps there is no branch of agriculture that appeals to man more than that of gardening and fruit growing. The desire to see something growing as the result of our own efforts is by no means confined to the man living in the country, for it appeals to the man living in the city as well. In a great many cases it is sad to relate that the city man, with his small backyard garden, too often puts his country brother to shame when it comes to the matter of a home orchard or, better still, a kitchen garden. The average man in the country justifies himself for the lack of a garden because of the lack of time or more often because gardening is woman's work. While it is true that the work necessary for the proper care of the orchard and garden often conflicts with the more important farm operations, still it is not a legitimate excuse, because the satisfaction and profits derived are generally greater in proportion than those derived from other crops.

The profit derived from a good kitchen garden, where asparagus, rhubarb, horseradish and other vegetables are grown, is almost invaluable from the standpoint of health as well as wealth. Who does not relish a meal where one of these vegetables is served after living all winter on the heavy nitrogenous foods that make up the major portion of the bill of fare during the cold months?

Fortunately this condition does not hold true for all the sections of the state. In the mountains one can not help being impressed with the number of small kitchen gardens that are located near the house and for the most part tended by the housewives. In this garden one will find all sorts of vegetables that do well during the summer and early fall before the frost appears. At the same time one can not help being impressed by the absence of hardy vegetables that will keep well during the winter months.

Small fruits, such as the strawberry, gooseberry and raspberries all do well, as evidenced by the fact that they are to be found growing wild on the hillsides, still like the late vegetables they are conspicuous by their absence.

It is possible that a great deal could be made in many sections of Eastern Kentucky by planting out the smaller fruits and providing means for canning them at home if necessary. All of the mining districts consume great quantities of canned fruits and these could be easily put up in many cases right in the mining districts, for oftentimes mining operations are stopped during the summer months when the small fruit crop is at its height. While small fruits offer quicker returns, one of the most profitable of the mountain fruits like the apple, peach and plum. The apple especially gives great promise in Eastern Kentucky. The peach and plum are more uncertain because of the climate and the pear is very susceptible to blight.

The many cores located towards the tops of the mountains offer excellent opportunities for the production of the highest grade of fruit. The two prime requisites for apple culture, namely, good air and water drainage are provided in nearly every section.

The question of marketing will all ways play a most important part in successful fruit growing. Kentucky annually imports a great deal more fruit than she produces, even in view of the fact that the state ranks fifth in the number of bearing trees. A large amount of this imported fruit is shipped from the West and from Michigan where labor and the allied means of production are very much higher than they are in Kentucky. An authority on this subject recently stated that it costs one dollar and forty-three cents to produce and market a bushel of western fruit on our eastern markets.

If the western growers can make a profit after this excessive charge, the Kentucky growers should be able to equal it at least with the market at his own door.

Disease and insect pests cause a great deal of loss because no systematic effort has been made to keep them in control, and undoubtedly this accounts for the great damage so often noted. San Jose scale is especially bad and it promises to wipe out many of the old orchards entirely. Although it appears very hard to the casual observer, it has often been termed a blessing in disguise where proper means of control are employed.

A great many farmers feel that they can not afford to wait long enough for an orchard to mature. It is true that it takes a long time for an orchard to come into bearing, but if the plan of growing small fruits as a side line is followed while the trees are growing, a profitable income will thereby be derived.

The fruit grown in Eastern Kentucky is equal to that produced in any other section. The standard varieties like Rome, Grimes, Jonathan, York Imperial, not to mention the Berry Red, Champion, King David, Black Ben and many others that are not so commonly found.

People interested in fruit growing and gardening throughout Eastern Kentucky will do well to visit the horticultural car that is soon to traverse the railroads in that section. Various orchard practices, such as planting, cultivation, pruning and spraying, will be fully discussed. In addition samples of the various diseases and insect pests will be on exhibition and the proper means of control will be fully explained.
